BRUNSWICK

CAFÉ RESTAURANT

345-PIEDAD-345

Is the most popular resort for the English

in this city and the only thoroughly English

Restaurant in South America.

Specialties in American Dishes.

A visit is solicited.

When you have your portrait taken you

naturally want a GOOD one; to ensure this

you must go to a place where the best

and most artistic artists will be to be

found, but where also TIME can be taken

to study your features, get their most

pleasing expression, the most suitable light

and graceful pose.

If the photographer lowers his prices too

much he cannot take the necessary time to

do his work well, but must run his cus-

tomers down like sheep, trusting to the

NUMBER to make his profit.

A sensible person will be aware of this

and prefer to go where fair prices are

charged and every care taken to ensure the

work turning out satisfactorily; such is the

case at the "Gran Fotografa Platense"

where customers never having been driven

away by excessively high prices, do not re-

quire to be lured back by catchpenny re-

ductions.

Gran Fotografa Platense

CORRIDA.

THURSDAY, JULY 7, 1892

TELEGRAMS

(To the "Prensa.")

London, 5th.—If the Radicals continue

to gain as they have done in the new

Parliament, the Times sees serious

difficulties ahead in the struggle between

the two political parties. The Daily

News says the question is how many

seats the Radicals have over the last

elections. The Standard says Glad-

stone will be beaten.

Serious election riots are still going on

in Ireland.

By suspending the service of the debt

(£440,000 sterling per annum) the ex-

penditure is brought within the probable

receipts. The debt is made up thus—

Loans in Europe 3,700,000 = 55,500,000

Internal debt..... 15,100,000

Debt currency..... 32,800,000

Total..... 103,400,000

But this is not all. The municipal loan

of Cordoba is £800,000 or 12,000,000

currency, thus bringing the total to

115,400,000 or 3200 currency per in-

habitant, as compared with 4000 per

head in Santa Fe.

San Luis.

The estimates of revenue and expendi-

ture were—

1884. 1890.

Revenue..... 207,000 220,000

Expenditure..... 207,000 220,000

The revenue of 1890 according to Gov.

Vieda was as follows—

1884. 1890.

Property tax..... 100,000

Sundries..... 120,000

Total..... 220,000

The expenditure (reducing gold at

200 per cent premium) was as follows—

1884. 1890.

Revenue..... 207,000 220,000

Expenditure..... 207,000 220,000

Public offices..... 330,000

Total..... 620,000

Even excluding the service of debt

there would be a deficit of 110,000.

The debt is made up thus—

1884. 1890.

Revenue..... 207,000 220,000

Expenditure..... 207,000 220,000

Foreign loan..... 150,000 = 2,300,000

Internal debt..... 2,500,000

Total..... 4,800,000

The debt is equal to 500 currency per

inhabitant, being much higher than in

Cordoba or Santa Fe.

Mendoza.

Estimates of revenue and expenditure

were as follows—

1884. 1890.

Revenue..... 470,000

Expenditure..... 470,000

The expenditure has increased seven-fold

in 6 years, chiefly owing to foreign

loans. The revenue in 1890 was as

follows—

1884. 1890.

Revenue..... 470,000

Expenditure..... 470,000

Property tax..... 240,000

Sundries..... 230,000

Total..... 470,000

The Government counted also on

\$550,000 of bank-profits, but the bank

was in so sad a condition in 1890 that it

was unable to meet the current coupon

of \$35,000 on the foreign loan, by means

of which it had been created. The ex-

penditure was estimated as follows—

1884. 1890.

Revenue..... 470,000

Expenditure..... 470,000

Int. on debt..... 450,000

Police..... 325,000

Sundries..... 380,000

Total..... 1,520,000

It may be interesting to compare the

importation and estimated crop for some

years, viz—

Tons

Year Imported Crop Consumed

1880..... 18,200 40,000 58,200

1881..... 22,900 35,000 57,900

1882..... 19,400 40,000 59,400

1883..... 34,500 30,000 64,500

1884..... 29,500 35,000 64,500

1885..... 12,800 50,000 62,800

1886..... 63,000 —

We are by no means certain that the

crop will reach the year the above es-

timate, but, if it does, it will be the

progress of sugar-planting is by no means

equal to the sacrifices which it entails on

the nation.

According to the Diario the market

value is 24 per cent for unfertilized

Tucuman sugar, or just double the value in

England. But in order to allow for re-

fining, freight, charges etc. we shall

suppose that the same sugar in B. Ayres

would come out £16 per ton. The over-

charge to the public is £8 per ton, and

as the consumption in the past 10 years

averaged 22,000 tons the amount has

been £500,000 per annum.

Of course we are told that this is

really no loss whatever, since the said

\$500,000 a year has been absorbed by

friends and capitalists engaged in the

business. But, however, the Government

is to bear in mind that 4,000,000 of people

are to be fed, and that the number of people

benefited is very small, a mere hand-

ful of sugar-men. And, who is to be

fed? That we are likely to produce

20,000 tons of sugar more than we did

six years ago. Decidedly the game is

not worth the candle. If it does not pay

the sugar-men to grow sugar, unless

protected by the tariff, a duty of 70

gold dollars per ton (or 100 per cent

ad valorem) the business must be a loss

to the Republic.

The dissident clergy, all but explained

away the Pontifical Letter, and which

was only the corroboration of the new

departures instigated by the Cardinal

of Cordoba, last year, "on passant," the

poor Cardinal is dying, not so much

from the failure of his salvation scheme

of the armed monks, as from the

political split in the French church. His

Holiness has resolved not to be mis-

understood; hence the second Encyclical,

this time ordering the bishops to

remain in constitutional lines, in their

relations with the republic and under
